FUND'S PERFORMANCE COMPARED TO BENCHMARK

FUND MANAGER'S REPORT

The US President Donald Trump - Leader of North Korea Kim Jong Un summit passed with lots of hype and fanfare but little substance apart from a general commitment of "building a lasting and stable peace regime in the Korean Peninsula". North Korea has pledged to completely denuclearize while the US provides security guarantees. This was overshadowed by the ongoing tensions arising from the imminent imposition of trade tariffs starting in July between the US and China. Meantime, the Federal Reserve has raised Federal Funds rate ceiling to 2.0% with the dot plot showing two more hikes for the year.

In Malaysia, zero rating Good and Services Tax (GST) and reinstating fuel subsidies provide good news as part of the new Government's promise. Despite assurance from the Minister of Finance that fiscal deficit of 2.8% will remain the objective, it remains to be seen if savings and deferments of projects plus increased oil revenues are sufficient to plug the shortfall. Standard & Poor rating agency has reaffirmed Malaysia's A- rating.

Based on the Fund's portfolio returns as at 31 May 2018, the Volatility Factor (VF) for this Fund is 3.3 and is classified as "Low" (source: Lipper). "Low" includes funds with VF that are above 1.785 but not more than 6.045 (source: Lipper). The VF means there is a possibility for the Fund in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by Lipper based on quintile ranks of VF for qualified funds. VF is subject to monthly revision and VC will be revised every six months. The Fund's portfolio may have changed since this date and there is no guarantee that the Fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display their VF and VC.
