FUND MANAGER'S REPORT

April was a month of rising geopolitical tensions as the US bombed Syria and Afghanistan in retaliation to alleged Syrian Government's use of chemical weapons and Islamic State of Iraq and Syria (ISIS) and their underground tunnels. Meanwhile in Europe, the French 1st round of Presidential elections rendered centrist Macron and right leaning Le Pen winners to progress to round 2 to be held in May. Concerns remain as a Le Pen victory may lead to French exit from the European Union (EU).

Concurrently, interest rates policies were held unchanged in Europe, Japan, Thailand, India and South Korea by their respective central bank.

Malaysia's March inflation surged to 5.1%, highest since November 2008 on effects of higher petrol prices. In addition foreigners sold off another RM27.5 billion of Government debts but with muted impact on our Reserves.
