FUND MANAGER'S REPORT

Tensions between Turkey and the US sparked by the imprisonment of a US pastor charged with terrorism and collusion with rivals of Turkey's President Erdogan escalated. The Turkish Lira sank 38.0% from 4.9 to USD to 6.8 in August exacerbated by tariff imposition. Interest rates have doubled from 8.0% to 17.75% this year. Meantime Argentine, struggling under their high debt and hyper-inflation economy of 31.0%, hope to secure International Monetary Fund (IMF) aid. The Argentinian Peso has depreciated 40.0% in August and almost 90.0% this year against USD despite interest rates at 60.0%. At the same time, trade rift with China deteriorated further with tariffs fixed on USD50 billion worth of imports which threatens to rise to USD200 billion to be responded in kind. Emerging markets fell on contagion fears as a result.

Malaysia's 2Q Gross Domestic Product (GDP) of 4.5% missed expectations of 5.2%. With year-on-year inflation at 0.9% and core inflation at -0.2%, bond investors benefited.

This document is prepared for information purposes only and is not intended to be an offer or invitation to subscribe or purchase of securities. The information contained herein has been obtained from sources believed in good faith to be reliable; however, no guarantee is given in its accuracy or completeness. Past performances of the Fund is not an indicative of future performance. Prices can go down as well as up and you may not get back the amount you originally invested. A copy of the Information Memorandum dated 28 August 2017 has been registered with the Securities Commission Malaysia, who takes no responsibility for its contents. Investors are advised to read the Information Memorandum and Product Highlight Sheet before making any investment decision. The Information Memorandum and Product Highlight Sheet are available at offices of Areca Capital Sdn Bhd or its authorised distributors and investors have the right to request for a copy of the Information Memorandum and Product Highlight Sheet. Investors should also consider the fees and charges involved. The Fund may not be suitable for all and if in doubt, investors should consult a professional adviser. Where a unit split/distribution is declared, investors are advised that following the issue of additional units/distribution, the NAV per unit will be reduced from pre-unit split NAV/cum-distribution NAV to post-unit split NAV/ex-distribution NAV; and where a unit split is declared, investors should be highlighted of the fact that the value of their investment in Malaysian ringgit will remain unchanged after the distribution of the additional units.
