FUND MANAGER'S REPORT
<p>With 10 years US Treasury benchmark closing below psychological level of 3.0%, 2/10years spread narrowed to 21 basis points at the end of November. The only time it was this narrow in the last 11 years was in August. Revisiting this level this round can be attributed to Federal Reserve's Chairman Powell's dovish statement that 'benchmark interest rates was "just below" neutral level' hinting that rate hikes frequency may decelerate and doubts as to whether the ongoing G20 meeting in Argentina can provide a platform to trade rift resolution.</p> <p>November saw oil prices plunge with Brent crude oil dropping 22% from USD75 to USD58.</p> <p>Malaysia's 2019 budget came in gentler than expected. Gross Domestic Product has been downwardly revised to 4.8% from 5.0% while fiscal consolidation of 3.7% in 2018 and 3.4% in 2019 allows for conservative expansion.</p>
