FUND'S PERFORMANCE COMPARED TO BENCHMARK

FUND MANAGER'S REPORT

Following US levy on washing machines and solar panels in January, a full blown trade war is now simmering after the latest imposition of steel and aluminium tariffs, threatening US-China trade totalling USD580 billion. This is said to punish China intellectual property theft and unfair investments in technology sector. Traders seek shelter by keeping US Treasuries in check with yields below 2.90%, drifting to a low of 2.74 at close of month despite the expected rate hike in Federal Reserve Funds rate by a quarter percent to 1.75%.

The less hawkish stance benefited Malaysian bond market with govies falling between 4 basis points and 14 basis points as we await announcement of the general elections.
