FUND MANAGER'S REPORT

The unprecedented and unexpected victory by the opposition coalition Pakatan Harapan and subsequent smooth transition of power in Malaysia's relatively fledgling democracy is a testament of the power of social media and maturity and wisdom of its people. Though early in the new Government's rule, a sense of 'kitchen-sinking' permeates amidst fulfilling manifestos. Removal of Good and Services Tax (GST) will be counterbalanced by re-imposition of Sales and Services Tax (SST), deferments of mega projects and higher oil revenues. A sense of prudent financial management at national level as well as addressing high cost of living amongst the citizens suggest a bias towards keeping easy monetary policy with low cost of borrowing while allowing fundamentals to take care of our external factors. Volatility in local stock and bond markets followed election results and will likely continue a while more as the new system of doing business and government replace the old.
