FUND MANAGER'S REPORT

Tensions between Turkey and the US sparked by the imprisonment of a US pastor charged with terrorism and collusion with rivals of Turkey's President Erdogan escalated. The Turkish Lira sank 38.0% from 4.9 to USD to 6.8 in August exacerbated by tariff imposition. Interest rates have doubled from 8.0% to 17.75% this year. Meantime Argentine, struggling under their high debt and hyper-inflation economy of 31.0%, hope to secure International Monetary Fund (IMF) aid. The Argentinian Peso has depreciated 40.0% in August and almost 90.0% this year against USD despite interest rates at 60.0%. At the same time, trade rift with China deteriorated further with tariffs fixed on USD50 billion worth of imports which threatens to rise to USD200 billion to be responded in kind. Emerging markets fell on contagion fears as a result.

Malaysia's 2Q Gross Domestic Product (GDP) of 4.5% missed expectations of 5.2%. With year-on-year inflation at 0.9% and core inflation at -0.2%, bond investors benefited.

FUND OBJECTIVE

Seek to offer investors regular income and incidental capital appreciation based on current market investment opportunities.
