FUND MANAGER'S REPORT

The US Federal Reserve left rates unchanged at the start of February. However with upbeat inflation and retail sales data coupled with unemployment numbers holding below 5.0%, rhetoric has turned hawkish. Expectation of a US rate hike in March 2017 has risen as evident in the minutes of Federal Reserve report. Despite this, benchmark ten year US Treasuries which rose months ahead in November 2016 traded in a narrow range of 2.31%-2.49% in February 2017.

In Malaysia, the pick-up in exports and imports data since November 2016 provided support for Q4's 4.5% Gross Domestic Product (GDP) growth, bringing the full year to 4.2% expansion. Meantime, inflation recorded a 12 month high at 3.2%. Local sovereign yields also trended up in line with heightened US rate hike expectations.
