5)	Areca Situational Income 2.0 Fund (CIS)	5.49

FUND'S PERFORMANCE COMPARED TO BENCHMARK

FUND MANAGER'S REPORT

The unprecedented and unexpected victory by the opposition coalition Pakatan Harapan and subsequent smooth transition of power in Malaysia's relatively fledgling democracy is a testament of the power of social media and maturity and wisdom of its people. Though early in the new Government's rule, a sense of 'kitchen-sinking' permeates amidst fulfilling manifestos. Removal of Good and Services Tax (GST) will be counterbalanced by re-imposition of Sales and Services Tax (SST), deferments of mega projects and higher oil revenues. A sense of prudent financial management at national level as well as addressing high cost of living amongst the citizens suggest a bias towards keeping easy monetary policy with low cost of borrowing while allowing fundamentals to take care of our external factors. Volatility in local stock and bond markets followed election results and will likely continue a while more as the new system of doing business and government replace the old.

Based on the Fund's portfolio returns as at 30 April 2018, the Volatility Factor (VF) for this Fund is 0.7 and is classified as "Very Low" (source: Lipper). "Very Low" includes funds with VF that are above 0 but not more than 1.785 (source: Lipper). The VF means there is a possibility for the Fund in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by Lipper based on quintile ranks of VF for qualified funds. VF is subject to monthly revision and VC will be revised every six months. The Fund's portfolio may have changed since this date and there is no guarantee that the Fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display their VF and VC.

This document is prepared for information purposes only and is not intended to be an offer or invitation to subscribe or purchase of securities. The information contained herein has been obtained from sources believed in good faith to be reliable; however, no guarantee is given in its accuracy or completeness. Past performances of the Fund is not an indicative of future performance. Prices can go down as well as up and you may not get back the amount you originally invested. A copy of the Information Memorandum dated 6 September 2011 and First Supplementary Information Memorandum dated 20 September 2013 has been registered with the Securities Commission Malaysia, who takes no responsibility for its contents. Investors are advised to read the Information Memorandum and First Supplementary Information Memorandum and Product Highlight Sheet before making any investment decision. The Information Memorandum, First Supplementary Information Memorandum and Product Highlight Sheet are available at offices of Areca Capital Sdn Bhd or its authorised distributors and investors have the right to request for a copy of the Information Memorandum, First Supplementary Information Memorandum and Product Highlight Sheet. Investors should also consider the fees and charges involved. The Fund may not be suitable for all and if in doubt, investors should consult a professional adviser. Where a unit split/distribution is declared, investors are advised that following the issue of additional units/distribution, the NAV per unit will be reduced from pre-unit split NAV/cum-distribution NAV to post-unit split NAV/ex-distribution NAV; and where a unit split is declared, investors should be highlighted of the fact that the value of their investment in Malaysian ringgit will remain unchanged after the distribution of the additional units.
