FUND MANAGER'S REPORT

Economic report after economic report gave further credence to a hawkish Federal Reserve in the US despite holding rates unchanged in January. Strong jobs data and improving Purchasing Managers' Index (PMI) was followed by higher inflation expectations and concerns over spiking budget deficit. Then there were reports that China may slowdown purchases of US Treasuries or even stop all together. US Treasuries prices slid as a result with ten year yields rising 20 basis points (bps) to close at 2.72%, a level last seen in April 2014.

Bank Negara Malaysia (BNM) raised Overnight Policy Rate (OPR) by 0.25% to 3.25%, the first hike since July 2014. Accompanying statement was somewhat hawkish with confidence towards global growth and domestic demand. Inflation remain susceptible to rising commodity and energy prices.

FUND OBJECTIVE
