FUND MANAGER'S REPORT

The US President Donald Trump - Leader of North Korea Kim Jong Un summit passed with lots of hype and fanfare but little substance apart from a general commitment of "building a lasting and stable peace regime in the Korean Peninsula". North Korea has pledged to completely denuclearize while the US provides security guarantees. This was overshadowed by the ongoing tensions arising from the imminent imposition of trade tariffs starting in July between the US and China. Meantime, the Federal Reserve has raised Federal Funds rate ceiling to 2.0% with the dot plot showing two more hikes for the year.

In Malaysia, zero rating Good and Services Tax (GST) and reinstating fuel subsidies provide good news as part of the new Government's promise. Despite assurance from the Minister of Finance that fiscal deficit of 2.8% will remain the objective, it remains to be seen if savings and deferments of projects plus increased oil revenues are sufficient to plug the shortfall. Standard & Poor rating agency has reaffirmed Malaysia's A- rating.

FUND OBJECTIVE

To provide investors with short to medium term capital preservation and a regular income. The Fund will invest primarily (with at least two third of its assets) in Fixed Income Securities and Money Market Instruments predominantly with a minimum credit rating of 'A3' by RAM or such equivalent rating by other rating agencies.
