Based on the Fund's portfolio returns as at 28 February 2026, the Volatility Factor (VF) for this Fund is 1.7 and is classified as "Very Low" (source: Lipper). "Very Low" includes funds with VF that are above 0 but not more than 4.245. The VF means there is a possibility for the Fund in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by Lipper based on quintile ranks of VF for qualified funds. VF is subject to monthly revision and VC will be revised every six months. The Fund's portfolio may have changed since this date and there is no guarantee that the Fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display their VF and VC.

This document is prepared for information purposes only and is not intended to be an offer or invitation to subscribe or purchase of securities. The information contained herein has been obtained from sources believed in good faith to be reliable; however, no guarantee is given in its accuracy or completeness. Past performances of the Fund is not an indicative of future performance. Prices can go down as well as up and you may not get back the amount you originally invested. A copy of the Replacement Information Memorandum dated 28 June 2019 has been lodged with the Securities Commission Malaysia, who takes no responsibility for its contents. Investors are advised to read the Information Memorandum and First Supplementary Information Memorandum and Product Highlight Sheet before making any investment decision. The Information Memorandum, First Supplementary Information Memorandum and Product Highlight Sheet are available at offices of Areca Capital Sdn Bhd or its authorised distributors and investors have the right to request for a copy of the Information Memorandum, First Supplementary Information Memorandum and Product Highlight Sheet. Investors should also consider the fees and charges involved. The Fund may not be suitable for all and if in doubt, investors should consult a professional adviser. Where a unit split/distribution is declared, investors are advised that following the issue of additional units/distribution, the NAV per unit will be reduced from pre-unit split NAV/cum-distribution NAV to post-unit split NAV/ex-distribution NAV; and where a unit split is declared, investors should be highlighted of the fact that the value of their investment in Malaysian ringgit will remain unchanged after the distribution of the additional units.

The Manager wishes to highlight the specific risks of the Fund are interest rate risk, credit / default risk, liquidity risk and issuer risk. These risks and other general risks are elaborated in the Master Prospectus.

5) Areca Progressive Income Fund 3.0	4.9

ASSET, SECTOR ALLOCATION & CREDIT RATING (% OF NAV)

FUND MANAGER'S REPORT

On February 28, nearly 900 strikes hit key targets across Iran within 12 hours marking the formal onset of the US/Israel–Iran conflict. Iran retaliated by shutting the Strait of Hormuz, which handles about 20% of global oil flows, paralysing shipping and sending Brent crude up 63% this month alone. In March, US Treasury yields (“UST”) rose sharply across the curve. Non-Farm Payroll surprised at +130,000 (vs +65,000 expected), pushing the market to price the next cut in July 2026 however, Fed funds rate held at 3.50%–3.75%. The 10Y Treasury finished at 4.44%, highest level since July 2025, with the 2Y at 3.88% and the 30Y at 4.98% compared to 4.15%, 3.56%, and 4.77% respectively at the start of the month. In the Eurozone, inflation rose from 1.9% to 2.5%, mainly due to rising energy prices, prompting the European Central Bank (ECB) President to signal a potential rate hike next month. This shift in policy expectations, alongside moderating growth, has heightened stagflation concerns.

In Malaysia, macro-outlook remains resilient amid external challenges. In Bank Negara Malaysia (BNM)’s Annual Report released on 31 March, Gross Domestic Product (GDP) growth is projected at 4.0%–5.0% driven by firm domestic demand. Headline inflation stood at 1.6% and core at 2.3. BNM held Overnight Policy Rate (OPR) unchanged at 2.75% at its March meeting, stating the current rate level remains appropriate to support growth while maintaining price stability.
