RESPONSIBILITY STATEMENT

This Product Highlights Sheet has been reviewed and approved by the Directors of Areca Capital Sdn Bhd and collectively and individually accept full responsibility for the accuracy of all information contained herein and confirm, having made all enquiries which are reasonable in the circumstances, that to the best of their knowledge and belief, there are no other facts omitted which would make any statement herein misleading.

SPECIFIC RISK DISCLOSURE STATEMENTS

The Fund may invest in illiquid assets such as non-tradable and non-transferable equity related securities or unlisted securities. Potential Sophisticated Investors are warned that they may not be able to redeem any Units within the first 24 months or longer from the date of investment; subject to the requirement of the underlying assets. For instance, the Fund may invest up to 100% of its NAV in preference share issued by a single issuer with an investment tenure of up to 24 months, therefore, you may not be able to redeem your investment for up to 24 months.

The Fund is suitable only for Sophisticated Investors who have a Medium to Long Term investment horizon. Investors may face difficulties in redeeming their investments as the Manager may not be able to dispose the investments. You are advised not to invest in this Fund if you are unable to accept the risks.

PRODUCT HIGHLIGHTS SHEET

ARECA PROGRESSIVE INCOME FUND

BRIEF INFORMATION ON THE FUND

1. What is this fund about?

Fund category / type	Wholesale Fund with flexible asset allocation / Income and Growth
Manager	Areca Capital Sdn Bhd (740840-D)
Trustee	RHB Trustees Berhad (573019-U)

PRODUCT SUITABILITY

2. Who is this fund suitable for?

Please note that this wholesale fund is for Sophisticated Investors (please refer to Glossary) only.

This Fund is suitable for Sophisticated Investors who:

- Have Medium to Long Term investment horizon;
- Seek combination of income and capital growth that is higher than performance benchmark rate of returns; and
- The Units are only offered to Sophisticated Investors (applicable for principal and Jointholder).

KEY FUND FEATURES

3. What am I investing in?

Launch date	20 February 2018
Initial Offer Period	30 days from the Launch Date. The Manager may shorten the Initial Offer Period.
Initial Offer Price	RM1.0000 (Fixed during Initial Offer Period)
Objective of the Fund	The Fund aims to provide Medium to Long Term combination of income and capital growth. Any material changes to the Fund's objective would require Unit Holder's approval.
Investment Strategy	The Fund may invest up to 100% of its NAV in authorised investments with flexible allocation in its assets to achieve a higher possible return by freely changing risk degree according to current market conditions. Depending on the market conditions, the Fund may concentrate its investments on few selected asset classes or a single investment that has potential for capital growth or that will minimize the Fund exposure to market risks. For instance the Fund may just fully invest in only preference shares for dividends and income. The Fund may also invest in collective investment schemes and place deposits with financial institutions.
Asset Allocation	Flexible allocation between equity and fixed income.
Performance Benchmark	Maybank's 12-month fixed deposit rate The risk profile of the Fund is different from the risk profile of the performance benchmark. There is no guarantee that the Fund will outperform the performance benchmark.

Distribution of Income and Reinvestment Policy	Subject to availability of distributable income, the Fund will distribute income at least once a year. In the absence of any instructions, we will, at our discretion, reinvest the income into another unit trust fund as determined by the Manager at the NAV per Unit of the distribution day without any entry fee.
Financial Year End	31 August

4. Who am I investing in?

Manager	Areca Capital Sdn Bhd (740840-D)
Trustee	RHB Trustees Berhad (573019-U)
Auditors	Deloitte PLT (LLP0010145 – LCA), Chartered Accountants (AF 0080)
Tax Advisers	Deloitte Tax Services Sdn Bhd (36421-T)
Solicitor	Naqiz & Partners

5. What are the possible outcomes of my investment?

There are many possible outcomes associated with an investment in the Fund and involves some degree of risk. Investors are to take note that the value of an investment in the Fund and its distributions payable (if any) may go down as well as up and are not guaranteed. The value of your investment is at risk depending on the underlying investments of the Fund.

Under normal circumstances, the Manager aims to out-perform the Fund's benchmark, the Maybank's 12-month fixed deposit rate. However, on the flip side, the Fund may post a much lower return or even incurring losses if one or more of the key risks occur. **In the worst scenario where all the investments of the Fund are in default or suspended, investors may lose part or even all of your initial investments.**

KEY RISKS

6. What are the key risks associated with this fund?

PLEASE BE ADVISED THAT IF YOU INVEST IN UNITS THROUGH AN IUTA WHICH ADOPTS THE NOMINEE SYSTEM OF OWNERSHIP, YOU WOULD NOT BE CONSIDERED TO BE A UNIT HOLDER UNDER THE DEED AND YOU MAY CONSEQUENTLY NOT HAVE ALL THE RIGHTS ORDINARILY EXERCISABLE BY A UNIT HOLDER (FOR EXAMPLE, THE RIGHT TO CALL FOR A UNIT HOLDERS' MEETING AND TO VOTE THEREAT AND THE RIGHT TO HAVE YOUR PARTICULARS APPEARING IN THE REGISTER OF UNIT HOLDERS OF THE FUND).

Below are the risks associated in the product which may cause significant losses if they occur.

General risks of investing in the Unit Trust Fund

- **Market Risk**

Market risk refer to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the Fund's NAV

- **Manager's Risk**

This risk refers to the day-to-day management of the fund by the manager which will impact the performance of the fund. For example, investment decisions undertaken by the manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the fund.

- **Inflation Risk**

This is the risk that investors' investment in the unit trust fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased.

Specific risks associated to the Fund

The Fund may invest in non-tradable and non-transferable equity related securities. The Fund is suitable only for investors who have a medium to long term investment horizon. You will not be able to redeem your Units within the first year from the Launch Date. You can only redeem once a month on the 15th of each month after the first year from the Launch Date. An exit fee will be imposed on redemption between 24 to 36 months from the Launch Date. An exit fee of 8% will be imposed on redemption made between 24 to 30 months from the Launch Date and 5% for redemption made between 30 to 36 months from the Launch Date. The Fund may invest up to 100% of its NAV in equity related-securities by a single issuer.

You are advised not to invest in this Fund if you are not able to accept the risks.

- **Illiquidity Risk**
The investment to be made by the Fund would be generally illiquid. The eventual liquidity of all investment of the Fund will be dependent upon the success of the realisation strategy proposed for each investment which could adversely be affected by a variety of risk factors. The period of time required to liquidate the Fund's assets cannot be predicted with certainty
- **Stock Specific Risk**
Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stocks will adversely affect the Fund's NAV.
- **Equity-related Securities Risk**
The Fund invests in equity-related securities such as rights and warrants, where price movement is dependent on the price movement of the underlying equities. The risk is generally higher than their underlying equities as these equity related securities are leveraged form of investment. The price of equity-related securities generally fluctuates more than the underlying equities and consequently may affect the volatility of the Fund's NAV.
- **Concentration risk**
Concentration risk is the probability of loss arising from lack of diversification, investing with a single issuer. The strength of the issuer may be affected due to changes of financial performance, news of a possible merger or loss of key personnel of the issuer.
- **Country Risk**
Investments of the Funds in any foreign countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Funds invests in. For example, the deteriorating economic condition of the countries may adversely affect the value of the investments undertaken by the Funds in those affected countries. This in turn may cause the NAV or prices of Units to fall.
- **Currency Risk**
As the base currency of the Funds is in Malaysian Ringgit, any fluctuation in the exchange rate between the base currency and the currencies in which the investments are denominated may have an impact on the value of these investments. Investors should be aware that if the currencies in which the investments are denominated depreciate against the base currency, this will have an adverse effect on the NAV of the Fund in the base currency and vice-versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.
- **Credit and default risk**
Credit risk relates to the creditworthiness of the issuers of the debt instruments and its expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the debt instrument. Default risk relates to the risk than an issuer of a debt instrument either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the debt instruments. This could adversely affect the value of the Fund.
- **Interest Rate Risk**
Interest rate risk refers to the impact of interest rate changes on the valuation of debt instruments whenever is applicable. When interest rates rise, debt instruments prices generally decline and this may lower the market value of the Fund's investment in debt instruments. The reverse may apply when interest rates fall.
- **Counterparty risk**
The Fund's placements of deposits and/or investments in money market instruments with financial institutions are subject to the risk of the counterparty. Counterparty risk also refers to the possibility that the counterparty being unable to make timely payments of interest and/or principal payment on the maturity date. This may then lead to a default in the payment and/or interest and ultimately, affect the NAV per Unit of the Fund.

The abovementioned risks which you should consider before investing into a wholesale fund should not be considered to be an exhaustive list.

You should be aware that investments in the Fund may be exposed to other risks of an exceptional nature from time to time.
