FUND MANAGER'S REPORT

The FBM KLCI declined 2.2% to close at 1,616 points. Similarly, the broader market FBM Emas Index fell 1.9% to 12,062 points, while the FBM Small Cap Index dipped 2.5% to 15,540 points.

Foreign investors remained net sellers in October, registering net outflows of RM0.9 billion (Sept 2026: -RM1.6 billion). Persistent foreign selling and elevated global bond yields continued to outweigh Malaysia's resilient domestic fundamentals. Nonetheless, Malaysia indices were more resilient against other global and regional markets, given it's 'safe haven' status.

Key domestic developments during the month included the tabling of Budget 2027, which allocated RM459.8 billion in expenditure and targeted a narrower fiscal deficit of 3.3% of GDP in 2027 from a revised 3.6% in 2026. It also introduced cost-of-living measures, including a hike in the minimum wage and expanded middle-class tax relief. Advance 3Q26 GDP growth came in at 5.3% YoY, above expectations and bringing 9M26 growth to 5.5%. Meanwhile, the Melaka state election was scheduled for 14 November, with nominations on 31 October.

Portfolios remain anchored in domestic recovery sectors, including healthcare and utilities, while selectively allocating to long-term structural growth themes such as AI, semiconductors, renewable energy and data centres. The fund has also locked in partial profits and rotated into large-cap names during periods of market weakness. Meanwhile, a healthy cash position is maintained to accumulate fundamentally strong companies when opportunities arise.
