SPECIFIC RISK DISCLOSURE STATEMENTS

The Fund may invest in illiquid assets such as non-tradable and non-transferable equity related securities or unlisted securities. Potential Sophisticated Investors are warned that they may not be able to redeem any Units within the first thirty six (36) months or longer from the date of investment; subject to the requirement of the underlying assets. For instance, the Fund may invest up to 100% of its NAV in preference share issued by a single issuer with an investment tenure of up to thirty six (36) months, therefore, you may not be able to redeem your investment for up to thirty six (36) months.

The Fund is suitable only for Sophisticated Investors with a Medium to Long Term investment horizon who understand the degree of risks involved and believe that the investment is suitable based upon their investment objectives and financial needs; accept the investment strategy of the Company according to their risk appetite; have no immediate need for liquidity and be prepared to potentially lose a substantial portion or all of their investment. Investors may face difficulties in redeeming their investments as the Manager may not be able to dispose the investments. You are advised not to invest in the Fund if you are unable to accept the risks.

Trustee	RHB Trustees Berhad [200201005356 (573019-U)]

PRODUCT SUITABILITY

2. Who is this fund suitable for?

Please note that this wholesale fund is for Sophisticated Investors (please refer to Glossary) only.

This Fund is suitable for Sophisticated Investors who:

- have Medium to Long Term investment horizon;
- seeks income with incidental capital growth that is higher than performance benchmark rate of returns; and
- The Units are only offered to Sophisticated Investors (applicable for principal Unit Holder and Jointholder).

KEY FUND FEATURES

3. What am I investing in?

Launch date	8 March 2023
Objective of the Fund	The Fund aims to provide investors a Medium to Long Term income and incidental capital growth. Income could be in the form of Units or cash. Any material changes to the Fund's objective would require Unit Holder's approval.
Investment Strategy	The Fund seeks to achieve its investment objective by primarily investing in Medium to Long Term flexible asset allocation investment portfolio in equity, fixed income securities, money market instrument, CIS and liquid assets depending on current market condition or investment opportunities. The Fund may invest up to 100% of its NAV in permitted investments with flexible allocation and may concentrate its investments in a single investment or few selected asset classes that has potential income and/or incidental capital growth or that may reduce the Fund exposure to market risks. For instance, the Fund may fully invest only in preference shares or CIS (to achieve its objective, or to aim to reduce market risk) for dividends and income. The Fund may place up to 100% in deposits with financial institutions or CIS when market condition is not favourable e.g. during high inflation or aggressive rate hike where most asset classes will be affected negatively. The Fund may hold cash for more than twelve (12) months if adverse market conditions prolong.
Asset Allocation	Flexible allocation between equity and fixed income depending on prevailing economic conditions and market outlook.
Performance Benchmark	Absolute Return of 4% per annum.

Distribution of Income and Reinvestment Policy	<p>Subject to availability of distributable income, the Fund will distribute income at least once a year by way of reinvestment as additional Units into the Fund and/or distribution in cash.</p> <p>In the absence of any instructions, we will, at our discretion, reinvest the income distribution or capital distribution of the Fund into another unit trust fund as determined by the Manager at the net asset value per unit of that unit trust fund on the distribution day of the Fund without any entry fee.</p>
Capital Distribution	<p><u>Capital distribution without cancellation / redemption of Units (“Cash Capital Distribution”)</u></p> <p>The Manager may declare Cash Capital Distribution by way of cash to Unit Holders at its discretion. Cash Capital Distribution will reduce the NAV of the Fund without reducing the total Units In circulation of the Fund.</p> <p><u>Capital distribution by way of mandatory cancellation / Redemption of Units (“Capital Redemption”)</u></p> <p>The Manager may make Capital Redemption through the compulsory Redemption of the Units held by the Unit Holders at its discretion.</p> <p>The Capital distribution of the Fund (with or without cancellation of Units) is pursuant to the maturity of the investment, disposal of the investment by Manager or early redemption of the investment by issuer (if any) and the Manager does not intend to reinvest the investment proceeds.</p>
Financial Year End	28 February

4. Who am I investing in?

Manager	Areca Capital Sdn Bhd [200601021087 (740840-D)]
Trustee	RHB Trustees Berhad [200201005356 (573019-U)]

5. What are the possible outcomes of my investment?

There are many possible outcomes associated with an investment in the Fund and involves some degree of risk. Investors are to take note that the value of an investment in the Fund and its distributions payable (if any) may go down as well as up and are not guaranteed. The value of your investment is at risk depending on the underlying investments of the Fund.

Under normal circumstances, the Manager aims to out-perform the Fund's benchmark, the Absolute Return of 4% per annum. However, on the flip side, the Fund may post a much lower return or even incurring losses if one or more of the key risks occur. In the worst scenario where all the investments of the Fund are in default or suspended, investors may lose part or even all of your initial investments.

KEY RISKS

6. What are the key risks associated with this fund?

PLEASE BE ADVISED THAT IF YOU INVEST IN UNITS THROUGH AN IUTA WHICH ADOPTS THE NOMINEE SYSTEM OF OWNERSHIP, YOU WOULD NOT BE CONSIDERED TO BE A UNIT HOLDER UNDER THE DEED AND YOU MAY CONSEQUENTLY NOT HAVE ALL THE RIGHTS ORDINARILY EXERCISABLE BY A UNIT HOLDER (FOR EXAMPLE, THE RIGHT TO CALL FOR A UNIT HOLDERS' MEETING AND TO VOTE THEREAT AND THE RIGHT TO HAVE YOUR PARTICULARS APPEARING IN THE REGISTER OF UNIT HOLDERS OF THE FUND).

Below are the risks associated in the product which may cause significant losses if they occur.

General risks of investing in the Unit Trust Fund

- **Market Risk**
Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political, social and/or other factors, which will result in a decline in the fund's net asset value. Market risk stems from the fact that there are economy-wide perils which impact all businesses. Investors will be exposed to market uncertainties no matter how a fund's investments are diversified. The fluctuations in the economy, political and social environment will affect the market price of the fund's investments either in a positive or negative way.
- **Manager's Risk**
This risk refers to the day-to-day management of a fund by the manager which will impact the performance of the fund. For example, investment decisions undertaken by the manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the deed, relevant laws or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the fund.

- **Liquidity Risk**

Liquidity risks refer to the ease of liquidating an asset at or near its fair value depending on the asset's volume traded in the market. If the fund holds assets that are illiquid, or are difficult to dispose of, the value of the fund will be negatively affected when it has to sell such assets at unfavourable prices. In situation where the fund has insufficient cash and is unable to liquidate its assets due to market condition as aforesaid, redemption requests made by the unit holders are likely to be affected as the manager may not be able to fulfil its payment obligation on time.

- **Financing Risk**

The risk occurs when investors take a financing to finance their investment and thereafter unable to service the financing payments. If units are used as collateral, an investor may be required to top-up his existing instalment if the prices of units fall below a certain level due to market conditions. Failing which, the units may be sold at a lower net asset value per unit as compared to the net asset value per unit at the point of purchase towards settling the financing.

- **Performance Risk**

As a result of the risk elements, the returns from a fund are not guaranteed. The value of the fund's investment will vary when disposed and an investment may be worth more or less than when purchased.

- **Inflation Risk**

This is the risk that investors' investment in the unit trust fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased.

- **Non-Compliance Risk**

This risk refers to the possibility that the manager may not follow the provisions set out in the information memorandum, the deed, the relevant laws, rules, guidelines or internal operating policies which governs the fund. Non-compliance may occur directly due to factors such as human error or system failure and can also occur indirectly due to amendment on the relevant regulatory frameworks, relevant laws, rules, and other legal practices affecting the fund. This risk may result in operational disruptions and potential losses to the fund.

- **Suspension of Redemption Request Risk**

Having considered the best interests of unit holders, the redemption requests by the unit holders may be subject to suspension due to exceptional circumstances, where the market value or fair value of a material portion of the fund's assets cannot be determined. In such case, unit holders will not be able to redeem their units and will be compelled to remain invested in the fund for a longer period of time than original timeline. Hence, their investments will continue to be subject to the risks inherent to the fund.

Specific risks associated to the Fund

The Fund may invest in illiquid assets such as non-tradable and non-transferable equity related securities or unlisted securities. Potential Sophisticated Investors are warned that they may not be able to redeem any Units within the first 36 months or longer from the date of investment; subject to the requirement of the underlying assets. For instance, the Fund may invest up to 100% of its NAV in preference share issued by a single issuer with an investment tenure of up to 3 years, therefore, you may not be able to redeem your investment for up to 3 years.

The Fund is suitable only for Sophisticated Investors who have a Medium to Long Term investment horizon. Investors may face difficulties in redeeming their investments as the Manager may not be able to dispose the investments. You are advised not to invest in this Fund if you are unable to accept the risks.

- **Illiquidity Risk**

The investment to be made by the Fund would be generally illiquid. The eventual liquidity of all investment of the Fund will be dependent upon the success of the realisation strategy proposed for each investment which could adversely be affected by a variety of risk factors. The period of time required to liquidate the Fund's assets cannot be predicted with certainty.

- **Stock Specific Risk**

Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stocks will adversely affect the Fund's NAV.

- **Equity-related Securities Risk**

The risk of the Fund's investment in equity-related securities such as rights and warrants, where the price movement is dependent on the price movement of the underlying equities is generally higher than the underlying equities as these equity-related securities are leveraged form of investment. The price of equity-related securities generally fluctuates more than the underlying equities and consequently may affect the volatility of the Fund's NAV. For example, warrants have a limited life and will depreciate in value as they approach their maturity date. If a warrant's exercise price is above the share price at any time during its remaining subscription period, the warrant will theoretically carry little value and warrants that are not exercised at the maturity date become worthless.

- **Concentration risk**

Concentration risk is the probability of loss arising from lack of diversification, investing with a single issuer. The strength of the issuer may be affected due to changes of financial performance, news of a possible merger or loss of key personnel of the issuer.

- **Country Risk**

Investments of the Funds in any foreign countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Funds invests in. For example, the deteriorating economic condition of the countries may adversely affect the value of the investments undertaken by the Funds in those affected countries. This in turn may cause the NAV or prices of Units to fall.

- **Currency Risk**
As the base currency of the Fund is in Malaysian Ringgit, any fluctuation in the currency exchange rate between the base currency of the Fund and the currencies in which the investments of the Fund are denominated may have an impact on the value of these investments. Investors should be aware that if the currencies in which the investments of the Fund are denominated depreciate against the base currency of the Fund, this will have an adverse effect on the NAV of the Fund in the base currency of the Fund and vice-versa. Investors should note that any gains or losses arising from the fluctuation in the currency exchange rate may further increase or decrease the returns of the investments of the Fund.
- **Credit and default risk**
Credit risk relates to the creditworthiness of the issuers of the debt instruments and its expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the debt instrument. Default risk relates to the risk than an issuer of a debt instrument either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the debt instruments. This could adversely affect the value of the Fund.
- **Interest Rate Risk**
Interest rate risk refers to the impact of interest rate changes on the valuation of debt instruments whenever is applicable. When interest rates rise, debt instruments prices generally decline and this may lower the market value of the Fund's investment in debt instruments. The reverse may apply when interest rates fall.
- **Counterparty risk**
The Fund's placements of deposits and/or investments in money market instruments with financial institutions are subject to the risk of the counterparty. Counterparty risk also refers to the possibility that the counterparty being unable to make timely payments of interest and/or principal payment on the maturity date. This may then lead to a default in the payment and/or interest and ultimately, affect the NAV per Unit of the Fund.
- **Business Risk Of Emerging Companies**
This risk is associated with investments in small cap companies. Emerging companies may be more volatile and risky compared with mature and well-established companies. Any irregular fluctuation of the stocks of these companies may affect the Unit price as the price of Units may also fluctuate.
- **Valuation Risk Related to the Fund's Assets**
The Fund's assets will consist of illiquid, unlisted and unquoted securities for which no public market exists, and for which no price quotation may be available from exchanges, brokers or other third party sources. Valuation of assets undertaken or provided by the Manager will be conclusive and binding on all investors. However, these valuations may not reflect the actual prices which would be realized upon a sale of a particular asset. Prospective investors should be aware that the valuation or pricing of certain asset classes, particularly hard-to-price assets such as illiquid, unlisted and unquoted securities, may result in subjective prices being applied to the Manager's calculations of the NAV of the Fund. This could materially affect the NAV of the Fund, particularly if the judgments of the Manager or its third party valuation agents regarding appropriate valuations or pricing is proven incorrect.
- **Unlisted Security Risk**
The Fund may be subject to the risks inherent in unlisted investment. The Fund may be compelled to make investment decisions on the basis of financial information that will be less complete and reliable than that customarily available for listed securities. The future performance of any entity into which any part of the Fund is invested and therefore the value of the Fund's investment portfolio may be subject to many factors over which the Fund may have limited or no control.

The abovementioned risks which you should consider before investing into a wholesale fund should not be considered to be an exhaustive list.

You should be aware that investments in the Fund may be exposed to other risks of an exceptional nature from time to time.

FEES & CHARGES

7. What are the fees and charges involved?

Entry Fee (Sales Charge)	Up to 4% of the net investment amount of the Fund
Exit Fee	NIL
Cooling-Off Rights	Not Available
Switching Fee	Not Available
Transfer Fee	Not available, unless by operations of law or under the provision of the Deed.
Annual Management Fee	Up to 2.00% p.a. of the NAV of the Fund.
Annual Trustee Fee	Up to 0.07% p.a. of the NAV of the Fund (excluding foreign custodian fee, if any).
Annual Performance Fee	The Manager is entitled to a Performance Fee of up to 20% on the net total returns upon redemption or Capital Distribution, computed on each Unit Holder's account individually. For avoidance of doubt, the net total returns for each Unit Holder's account will be calculated by comparing the investment amount (including entry fee) to redemption or Capital Distribution with adjustment of any income distribution during the investment period.

How will I be notified of any increase in fees and charges?

- A written communication will be sent to unit holders to notify of the higher rate and its effective date;
- A supplementary or replacement Information Memorandum will be lodged and issued.

VALUATION AND EXITING FROM INVESTMENT

8. How often are valuations available?

The valuation of the assets of the Fund is carried out at the end of the Business Day.

The NAV per unit of the Fund will be published on the Manager's website at www.arecacapital.com

9. How can I invest in this investment?

Minimum Initial Investment	RM50,000 or such other amount as decided by the Manager.
Minimum Additional Investment	RM10,000 or such other amount as decided by the Manager.

Note: The Manager reserves the right to accept or reject any application in whole or part thereof without assigning any reason.

10. How can I exit from this investment and what are the risks and costs involved?

Minimum Redemption	50,000 Units or such other lower number of Units at the Manager's discretion.
Minimum Balance	50,000 Units or such other number of Units at the Manager's discretion. We will, at our sole discretion, require you to redeem all the Units should the remaining balance Units in your account is less than the minimum balance.
Redemption Restriction/Frequency	You may not be able to redeem your Units within the first thirty six (36) months from the investment date ("Restriction Period") subject to the liquidity and terms of the underlying investment, which will be disclose in the application forms (e.g. Specific Risk Disclosure Form). Investors may face difficulties in redeeming their investments as the Manager may not be able to dispose of the investments and has insufficient cash, even after the Restriction Period. Please consider the liquidity risk of investing in this Fund.
Redemption Payment	We will pay you within seven (7) Business Days upon our receipt of the duly completed original Redemption form. However, for the Fund, it is our general Redemption policy to make payment within three (3) Business Days (T+3 days). Please note that for third party distributors such as IUTA, the Redemption payment could be longer, however it will still be within seven (7) Business Days as aforementioned. Redemption proceeds will be only paid to the principal Unit Holder, unless requested by the principal Unit Holder to pay to the Jointholder. We do not pay the Redemption proceeds to any third-party.
Cut-Off time	All completed transaction forms and investment notice must be submitted to the Manager before the cut-off time, on any Business Day. We will process your transaction on the next Business Day if we receive your application after the cut-off time. Distributors may impose an earlier cut-off time if you purchase the Units through our distributors. Redemption proceeds will only be credited into your account after we receive your original Redemption form. Please refer to our company website, www.arecacapital.com for the cut-off time.

Note: All completed transaction forms must be submitted to the Manager before the cut-off time as determined by the Manager, on any Business Day. We will process your transaction on the next Business day if we receive your application after the cut-off time. Distributors may impose an earlier cut-off time if you purchase the Units through our distributors. Redemption proceeds will only be credited into your account after we receive your original redemption form.
