You should read and understand the contents of this Prospectus and, if necessary, consult your adviser. For information concerning certain risk factors which should be considered by you, see "Risk Factors" commencing on page 11.

RISKS FACTORS

All types of investments carry some degree of risks which may have an adverse effect on the price of the investments. Therefore, before making an investment decision, investors are advised to consider the different types of risks that may affect the unit trust fund. Below are some of the general risks of investing in the unit trust fund and specific risks associated with the investment portfolio of the Fund.

GENERAL RISKS OF INVESTING IN A UNIT TRUST FUND

- **Market Risk**

Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political, social and/or other factors, which will result in a decline in the fund's net asset value. Market risk stems from the fact that there are economy-wide perils which impact all businesses. Investors will be exposed to market uncertainties no matter how a fund's investments are diversified. The fluctuations in the economy, political and social environment will affect the market price of the fund's investments either in a positive or negative way.

- **Manager's Risk**

This risk refers to the day-to-day management of a fund by the manager which will impact the performance of the fund. For example, investment decisions undertaken by the manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the fund.

- **Liquidity Risk**

Liquidity risks refer to the ease of liquidating an asset at or near its fair value depending on the asset's volume traded in the market. If the fund holds assets that are illiquid, or are difficult to dispose of, the value of the fund will be negatively affected when it has to sell such assets at unfavourable prices. In situation where the fund has insufficient cash and is unable to liquidate its assets due to market condition as aforesaid, redemption requests made by the unit holders are likely to be affected as the Manager may not be able to fulfil its payment obligation on time.

- **Financing Risk**

The risk occurs when investors take a financing to finance their investment and thereafter unable to service the financing payments. If units are used as collateral, an investor may be required to top-up the investor's existing instalment if the prices of units fall below a certain level due to market conditions. Failing which, the units may be sold at a lower net asset value per unit as compared to the net asset value per unit at the point of purchase towards settling the financing.

- **Performance Risk**

As a result of the risk elements, the returns from a fund are not guaranteed. The value of the fund's investment will vary when disposed and an investment may be worth more or less than when purchased.

- **Inflation Risk**

This is the risk that investors' investment in the unit trust fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased.

- **Non-Compliance Risk**

This risk refers to the possibility that the manager may not follow the provisions set out in the prospectus or the deed or the laws, rules, guidelines or internal operating policies which governs the fund. Non-compliance may occur directly due to factors such as human error or system failure and can also occur indirectly due to amendment on the relevant regulatory frameworks, laws, rules, and other legal practices affecting the fund. This risk may result in operational disruptions and potential losses to the fund. The Manager aims to reduce this risk by placing stringent internal policies and procedures and compliance monitoring processes to ensure that the fund is in compliance with the relevant regulations or guidelines.

- **Suspension of Redemption Request Risk**

Having considered the best interests of Unit Holders, the Redemption requests by the Unit Holders may be subject to suspension due to exceptional circumstances, where the market value or fair value of a material portion of the fund's assets cannot be determined. In such case, Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time than original timeline. Hence, their investments will continue to be subject to the risks inherent to the Fund.

SPECIFIC RISKS ASSOCIATED TO THE FUND

- **Stock Specific Risk**

Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stocks will adversely affect the Fund's NAV.

- **Equity-related Securities Risk**

A Fund that invest in equity-related securities such as rights and warrants, where price movement is dependent on the price movement of the underlying equities the risk is generally higher than their underlying equities as these equity related securities are leveraged form of investment. The price of equity-related securities generally fluctuates more than the underlying equities and consequently may affect the volatility of the Fund's NAV. For example, warrants have a limited life and will depreciate in value as they approach their maturity date. If a warrant's exercise price is above the share price at any time during its remaining subscription period, the warrant will theoretically carry little value and warrants that are not exercised at the maturity date become worthless.

- **Business Risk Of Emerging Companies**

This risk is associated with investments in small cap companies. Emerging companies may be more volatile and risky compared with mature and well-established companies. Any irregular fluctuation of the stocks of these companies may affect the Unit price as the price of Units may also fluctuate.

- **Leveraged Exchange Traded Fund (LETF) and Inverse Exchange Traded Fund (IETF) Risk**

Investment in LETF and IETF can provide disproportionate gains as well as disproportionate losses to the Fund. The LETF utilizes leverage to obtain the required exposure of multiple times of its Net Asset Value (e.g. 200%) to the Underlying Index while the IETF will obtain the required exposure of substantial (e.g. up to -100%) of its Net Asset Value to the Underlying Index. As such, gains and losses will be magnified and thus will affect the Fund's NAV.

The abovementioned risks which you should consider before investing into a unit trust fund should not be considered to be an exhaustive list.

You should be aware that investments in the Fund may be exposed to other risks of an exceptional nature from time to time.

BASES OF VALUATION OF THE ASSETS OF THE FUND

Investment Instruments	Valuation Basis
Investment instruments that are listed and quoted on an exchange	The official closing price or last known transacted price on the Eligible Market on which the investment is quoted. However, if the price is not representative for example during abnormal market conditions or not available to the market including in the event of a suspension in the quotation of the investment instrument for a period exceeding 14 days, or such shorter period as agreed by the Trustee, the investment will be valued at fair value.
Investment instruments not listed or quoted on an exchange	At fair value as determined in good faith by the Manager.

TRANSACTION INFORMATION

CALCULATION OF UNIT PRICES

Valuation Point

Every Business Day is a dealing day of the Fund where the Fund is open for sale and repurchase of Units by the Manager. The Fund will be valued at least once every Business Day. The Fund will be valued at the end of every Business Day and the Manager will publish the NAV per Unit on the Manager's website at www.arecacapital.com following the valuation of the Fund.

Single Pricing Policy

We adopt the single pricing policy to price the Units in relation to investment and Redemption of Units. This means that the selling of Units by the Manager (i.e. when you purchase Units and invest in the Fund) and repurchase of Units by the Manager (i.e. when you redeem your Units and liquidate your investments) will be carried out at NAV per Unit (the actual value of the Unit). The entry fee/exit fee (if any) would be computed separately based on your net investment/Redemption amount. The single price for investment and Redemption of Units shall be the daily NAV per Unit as at the next valuation point after the Manager receives the investment or Redemption application (i.e. forward pricing).

How Is The NAV (actual value) Per Unit Calculated?

The Manager will calculate the NAV of the Fund at the end of the valuation point. The NAV is defined as the total value of the Fund's investment, assets and properties less any liabilities or provisions. Where applicable, investment income, fees and other liabilities will be accrued daily in arriving at the NAV of the Fund. The NAV per Unit is then determined by dividing the NAV of the Fund by the number of Units in circulation at the valuation point rounded nearest to four (4) decimal places or as agreed between Manager and Trustee.

Please note that the example below is for illustration only:

Illustration 1: Computation of NAV		RM
	Securities Investment	10,050,000.00
Add:	Assets	310,000.00
		<hr/> 10,360,000.00
Less:	Liabilities	1,023.83
	NAV before deducting annual management fee, annual trustee fee and performance fee for the day	<hr/> 10,358,976.17
Less:	Annual management fee for the day (1.00% per annum)	283.81
Less:	Annual trustee fee for the day (0.06% per annum)	17.03
	Total NAV before performance fee (after deducting management fee and trustee fee)	<hr/> 10,358,675.33
Less:	Performance fee for the day $((1.0349-1.0000)*10\%* 10,007,869.04 \text{ units})$	34,889.45
	Total NAV after performance fee (after deducting management fee, trustee fee and performance fee)	<hr/> 10,323,785.88
<i>Assuming the HWM is RM1.0000 and the total Units in circulation is 10,009.781.80 (based on Day 4 illustration on performance fee)</i>		

NAV per Unit

The NAV per Unit is then determined by dividing the NAV of the Fund by the number of Units in circulation at the valuation point. If the Units in circulation are 10,009.781.80 Units at the point of valuation, therefore:

Illustration 2: Computation of NAV per Unit

NAV per Unit of the Fund	= NAV ÷ Units in Circulation
NAV per Unit of the Fund before performance fee	= RM10,358,675.33 ÷ 10,009.781.80 = RM1.0349
NAV per Unit of the Fund after performance fee	= RM10,323,785.88 ÷ 10,009.781.80 = RM1.0314

Computation of Net Investment Amount and Units Entitlement

- For investors who make a lump sum payment inclusive of fees and any relevant taxes which may be imposed by government from time to time.

The net investment amount (excluding fees and taxes) is determined by dividing the lump sum payment (excluding bank charges) with a Charge Factor.

Charge Factor = 100% + Entry Fee in %

The number of Units invested is determined by dividing the net investment amount (excluding fee and taxes), with the NAV per Unit at the next valuation point after the Manager receives the investment application and rounded up to two (2) decimal places.

Illustration 3A: Allocation of Units to Investor

Assuming you invest a lump sum of RM100,000 of gross investment amount with an entry fee of 2% and the NAV per Unit of the Fund is RM1.0314, therefore;

	RM
Gross Investment amount	100,000.00
Divided by Charge Factor: 100% + (2%)	1.0200
Net Investment Amount	98,039.22
Divided by NAV per Unit	1.0314
Units credited to investor's account	95,057.29
Net Investment Amount	98,039.22
2% Entry Fee	1,960.78
Gross Investment Amount	100,000.00

- For investors who prefer an even (rounded) net investment amount

The number of Units invested is determined by dividing the net investment amount (excluding fee and taxes), with the NAV per Unit at the next valuation point after the Manager receives the investment application and rounded up to two (2) decimal places.

Illustration 3B: Allocation of Units to Investor

Assuming you invest RM100,000 into the Fund, and the NAV per Unit of the Fund is RM1.0314, therefore;

	RM
Net Investment amount	100,000.00
Add: Entry Fee of 2% (RM100,000 x 2%)	2,000.00
Total amount payable by investor	102,000.00
Net Investment Amount	100,000.00
Divided by NAV per Unit	1.0314
Units credited to investor's account	96,958.43

Performance Fee

The Manager will earn a 10% performance fee on the appreciation in the NAV per Unit (before performance fee) over and above the High Water Mark (HWM) during a Performance Period (a period of 12 months from 1 January to 31 December each year except for the first year, the Performance Period is a period of less than 12 months from the end of Initial Offer Period to 31 December), subject to a maximum of 5% per annum of the NAV of the Fund. The performance fee is calculated and readjusted on a daily basis. Although the calculation is on a daily basis, the performance fee is only payable to the Manager at the end of each Performance Period:

- (a) if there is an appreciation in the NAV per Unit (before performance fee) over and above the High Water Mark at the end of the particular Performance Period; and
- (b) if the Manager receives a redemption request at a time when the NAV per Unit (before performance fee) is higher than the HWM, during the Performance Period; the performance fee is chargeable to the redeeming Unit Holder regardless of the Fund's performance at the end of the particular Performance Period.

If the Fund's performance (NAV per Unit before performance fee) exceeds the HWM on any particular day, the applicable performance fee for the day will be accrued and accounted as a liability of the Fund in computing the NAV per Unit on that day, and this will reduce the NAV per Unit for that day. Correspondingly, if the Fund's performance (NAV per Unit before performance fee) does not exceed the HWM on any particular day, there is no performance fee charged. Performance fee which has been accrued and accounted as liability of the Fund on the previous day will be reversed (i.e. reverted to zero) except for the performance fee charged on redeemed units. This is to ensure that no performance fee will be charged to a unit holder realising his/her units on a day when the Fund's performance does not exceed the HWM. The performance fee (if any) accrued as at the end of each Performance Period shall be paid to the Manager as soon as practicable following the end of a Performance Period out of the Fund.

Performance fee equalisation is not adopted. As such, the performance fee payable in respect of units held may not correspond to the actual performance of those units. The performance fee is not determined on the Fund's performance from the point of subscription for units by investors. It is possible for a unit holder to incur performance fee on his or her units even though the return on his or her units is negative. For example, if the unit holder redeems his or her units at a lower NAV per Unit than when he or she subscribed for such units and the NAV per Unit exceeds the High Water Mark on the date of redemption, performance fee is chargeable to such units.

High Water Mark, HWM

The Manager will determine the HWM at the beginning of every Performance Period.

The HWM for the 1st Performance Period will be the initial offer price of RM1.00. For subsequent Performance Periods, the HWM will be the higher of:

- i. the NAV per Unit on the last valuation point of the previous Performance Period; and
- ii. the HWM for the previous Performance Period.

Please find below the illustration on the entitlement of performance fee:

Table 1:

Performance Period	HWM (RM)	NAV per Unit as at the valuation point of a Performance Period	Performance Fee	Remarks for HWM resetting

Areca Capital Sdn Bhd

We have in place policies and procedure to deal with any conflict of interest situations. All transactions with related parties are executed on terms that are best available to the Fund and which are no less favourable than arm's length transaction between independent parties.

These decisions are informed by considerations such as market outlook, interest rate trends, and the suitability of the investment to the Fund's objectives. The members of a committee undertaking the oversight function of the Fund provide oversight on the fund management team's investment strategy and its application to the Fund, ensuring that investments align with the Fund's investment goals.

Over and above all decisions and steps taken to avoid potential and/or actual conflict of interest, the overarching principle of "the interest of the investor to prevail above all" will be upheld. This is a core principle of the investment approach and underscores the commitment to maintaining the highest levels of integrity and transparency by the Manager.

Our directors or any employees may invest in the Fund managed or distributed by us. Trading in securities by our employees is allowed, provided that policies and procedures in respect of the personal account dealing are observed. An annual declaration of securities trading is required from all directors and employees to ensure there is no potential conflict of interest.

The Manager may pay up to 100% of the fees and charges as commission to distribution partner.

Maybank Trustees Berhad

As trustee for the Fund, there may be related party transaction involving or in connection with the Fund in the following events: -

1. Where the Fund is being distributed by the related party of the Trustee as IUTA;
2. Where the assets of the Fund are being custodised by the related party of the Trustee both as sub-custodian and/or global custodian of the Fund (Trustee's delegate); and
3. Where the Fund obtains financing as permitted under the Guidelines, from the related party of the Trustee.

The Trustee has in place policies and procedures to deal with any conflict of interest situation. The Trustee will not make improper use of its position as the owner of the Fund's assets to gain, directly or indirectly, any advantage or cause detriment to the interests of Unit Holders. Any related party transaction is to be made on terms which are best available to the Fund and which are no less favorable to the Fund than an arm's length transaction between independent parties.

Subject to any local regulations, the Trustee and/or its related group of companies may deal with each other, the Fund or any Unit Holder or enter into any contract or transaction with each other, the Fund or any Unit Holder or retain for its own benefit any profits or benefits derived from any such contract or transaction or act in the same or similar capacity in relation to any other scheme.

TAXATION OF THE FUND AND UNIT HOLDERS

Dear Sirs,

This letter has been prepared for inclusion in the First Prospectus in connection with the Areca Aggressive Alpha Fund ("the Fund").

The taxation of income for both the Fund and the Unit Holders are subject to the provisions of the Malaysian Income Tax Act 1967 ("the Act"). The applicable provisions are contained in Section 61 of the Act, which deals specifically with the taxation of trust bodies in Malaysia.

TAXATION OF THE FUND

The Fund will be regarded as resident for Malaysian tax purposes since the Trustee of the Fund is resident in Malaysia.

(1) Domestic Investments

(i) General Taxation

Subject to certain exemptions, the income of the Fund consisting of dividends or interest (other than interest which is exempt from tax) and other investment income derived from or accruing in Malaysia, after deducting tax allowable expenses, is liable to Malaysian income tax at the rate of 24 per cent.

Gains on disposal of investments in Malaysia by the Fund will not be subject to Malaysian income tax.

(ii) Dividends and Other Exempt Income

Effective 1 January 2014, all companies would adopt the single-tier system. Hence, dividends received would be exempted from tax and the deductibility of expenses incurred against such dividend income would be disregarded. There will no longer be any tax refund available for single-tier dividends received. Dividends received from companies under the single-tier system would be exempted.

The Fund may receive Malaysian dividends which are tax exempt. The exempt dividends may be received from investments in companies which had previously enjoyed or are currently enjoying the various tax incentives provided under the law. The Fund will not be taxable on such exempt income.

Interest or discount income derived from the following investments is exempt from tax:

- (a) Securities or bonds issued or guaranteed by the government of Malaysia;
- (b) Debenture¹ other than convertible loan stocks, approved or authorized by, or lodged with, the Securities Commission Malaysia; and
- (c) Bon Simpanan Malaysia issued by Bank Negara Malaysia.

Interest derived from the following investments is exempt from tax:

- (a) Interest paid or credited by any bank or financial institution licensed under the Financial Services Act 2013 and Islamic Financial Services Act 2013;
- (b) Interest paid or credited by any development financial institution regulated under the Development Financial Institutions Act 2002;
- (c) Bonds, other than convertible loan stocks, paid or credited by any company listed in Bursa Malaysia Securities Berhad ACE Market; and
- (d) Interest paid or credited by Malaysia Building Society Berhad².

The interest or discount income exempted from tax at the Fund's level will also be exempted from tax upon distribution to the Unit holders.

Exception: -

i. Wholesale money market fund

With effect from 1 January 2019, the exemption shall not apply to interest income or profit¹ credited to a unit trust that is a wholesale money market fund.

ii. Retail money market fund ("RMMF")

Based on the Finance Act 2021, the interest income of a RMMF will remain tax exempted under Paragraph 35A, Schedule 6 of the Act. However, resident and non-resident Unit Holders (other than individual Unit Holders), who receive income distributed from interest income of the RMMF which are exempted under Paragraph 35A of Schedule 6, will be subject to withholding tax ("WHT") at the rate of 24 per cent. This new WHT will be effective from 1 January 2022 onwards.

The WHT is to be withheld and remitted by the RMMF to the tax authorities within 30 days upon distribution of the income to the Unit Holders.

(2) Foreign Investments

With effect from 1 January 2022, the exemption of foreign-sourced income received in Malaysia is only applicable to a person who is a non-resident.

The Ministry of Finance subsequently announced on 30 December 2021 that subject to conditions, which will be set out in guidelines to be issued by the Inland Revenue Board ("IRB"), the following foreign-sourced income received from 1 January 2022 to 31 December 2026 (5 years) will continue to be exempted from Malaysian income tax:

- Dividend income received by resident companies and limited liability partnerships.
- All classes of income received by resident individuals, except for resident individuals which carry on business through a partnership.

In addition to the conditions already spelt out previously, resident companies, LLPs and individuals (in relation to a partnership business in Malaysia) are required to comply with economic substance requirements in order to qualify for the tax exemption on foreign-sourced dividend income received in Malaysia from outside Malaysia.

Based on clarifications from the IRB, foreign-sourced income (e.g. dividends, interest, etc.) of a resident Fund which is received in Malaysia will be subject to tax. There will be a transitional period from 1 January 2022 to 30 June 2022 where foreign-sourced income remitted to Malaysia will be taxed at the rate of 3 per cent on gross income. From 1 July 2022 onwards, any foreign-sourced income remitted to Malaysia will be subject to Malaysian income tax at the rate of 24 per cent for a resident Fund.

Such income from foreign investments may be subject to taxes or withholding taxes in the specific foreign country. Subject to meeting the relevant prescribed requirements, the Fund in Malaysia is entitled for double taxation relief on any foreign tax suffered on the income in respect of overseas investment.

Gains on disposal of foreign investments by the Fund will not be subject to Malaysian income tax.

The foreign income subjected to Malaysian tax at the Fund level will also be taxable upon distribution to the Unit Holders. However, the income distribution from the Fund will carry a tax credit in respect of the Malaysian tax paid by the Fund. Unit Holders will be entitled to utilise the tax credit against the tax payable on the income distribution received by them.

(3) Tax Deductible Expenses

Expenses wholly and exclusively incurred in the production of gross income are allowable as deductions under Section 33(1) of the Act. In addition, Section 63B of the Act provides for tax deduction in respect of managers' remuneration, expenses on maintenance of the register of Unit Holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postages based on a formula subject to a minimum of 10 per cent and a maximum of 25 per cent of the expenses.

(4) Real Property Gains Tax ("RPGT")

With effect from 1 January 2019, any gains on disposal of real properties or shares in real property companies⁴ "chargeable asset" would be subject to RPGT as follows:-

Disposal time frame	RPGT rates (Companies incorporated in Malaysia and Trustee of a trust)
Within 3 years	30%
In the 4 th year	20%
In the 5 th year	15%
In the 6 th year and subsequent years	10%

(5) Sales and Service Tax ("SST")

Effective from 1 September 2018, SST has been reintroduced to replace the Goods and Services Tax ("GST"). Both the Sales Tax Act 2018 and Services Tax Act 2018 have been gazetted on 28 August 2018. The rates for sales tax are nil, 5 per cent, 10 per cent or a specific rate whereas the rate for service tax is at 6 per cent.

Sales tax will be chargeable on taxable goods manufactured in or imported into Malaysia, unless specifically exempted by the Minister. Whereas, only specific taxable services provided by specific taxable persons will be subject to service tax. Sales tax and service tax are single stage taxes. As such, SST incurred would generally form an irrecoverable cost to the business.

In general, the Fund, being collective investment vehicle, will not be caught under the service tax regime.

Certain brokerage, professional, consultancy or management services obtained by the Fund may be subject to service tax at 6 percent. However, fund management services and trust services are excluded from service tax. With effect from 1 January 2019, service tax will apply to any taxable service that is acquired by any business in Malaysia from a non-Malaysian service provider. In this connection, the Fund, being non-taxable person who acquire imported taxable services (if any) will need to declare its imported taxable services through the submission of prescribed declaration, i.e. Form SST-02A to the Royal Malaysian Customs Department ("RMCD").

With effect from 1 January 2020, service tax on digital services was implemented at the rate of 6 per cent. Under the service tax on digital services, foreign service providers selling digital services to Malaysian consumers are required to register for and charge service tax. Digital services are defined as services which are delivered or subscribed over the internet or other electronic network, cannot be delivered without the use of IT and the delivery of the service is substantially automated.

Furthermore, the provision of digital services has also been prescribed as a taxable service when provided by a local service provider with effect from 1 January 2020. Hence, where the Fund obtains any of the prescribed digital services, those services may be subject to service tax at 6 percent.

TAXATION OF UNIT HOLDERS

Unit Holders will be taxed on an amount equivalent to their share of the total taxable income of the Fund to the extent of the distributions received from the Fund. The income distribution from the Fund will carry a tax credit in respect of the tax paid by the Fund. Unit Holders will be entitled to utilise the tax credit against the tax payable on the income distribution received by them. Generally, no additional withholding tax will be imposed on the income distribution from the Fund; unless the Fund is an RMMF, in which case there is a WHT on distribution from interest income of a RMMF which are exempted under Paragraph 35A of Schedule 6 and distributed to non-individual unitholders.

Corporate Unit Holders, resident⁴ and non-resident, will generally be liable to income tax at 24 per cent⁶ on distribution of income received from the Fund. The tax credits attributable to the distribution of income can be utilised against the tax liabilities of these Unit Holders.

Individuals and other non-corporate Unit Holders who are tax resident in Malaysia will be subject to income tax at graduated rates ranging from 1 per cent to 30 per cent. Individuals and other non-corporate Unit Holders who are not resident in Malaysia will be subject to income tax at 30 per cent. The tax credits attributable to the distribution of income will be utilised against the tax liabilities of these Unit Holders.

Non-resident Unit Holders may also be subject to tax in their respective jurisdictions. Depending on the provisions of the relevant country's tax legislation and any double tax treaty with Malaysia, the Malaysian tax suffered may be creditable against the relevant foreign tax.

Effective from 1 January 2022, in respect of distribution from a RMMF, resident and non-resident corporate Unit Holders (other than individual Unit Holders), who receive income distributed from interest income of the RMMF which are exempted under Paragraph 35A of Schedule 6, will be subject to WHT at the rate of 24 per cent, effective from 1 January 2022.

For resident corporate Unit Holders, the WHT is not a final tax. The resident corporate Unit Holders will need to subject the income distributed from interest income of a RMMF which are exempted under Paragraph 35A of Schedule 6 to tax in its income tax returns and the attached tax credit i.e. the 24 per cent WHT suffered will be available for set-off against the tax chargeable on the resident corporate Unit Holders.

For non-resident Corporate Unit Holders, the 24 per cent WHT on income distributed from interest income of a RMMF which are exempted under Paragraph 35A of Schedule 6, is a final tax.

The distribution of exempt income and gains arising from the disposal of investments by the Fund will be exempted from tax in the hands of the Unit Holders.

Any gains realised by Unit Holders (other than those in the business of dealing in securities, insurance companies or financial institutions) on the sale or redemption of the units are treated as capital gains and will not be subject to income tax. This tax treatment will include in the form of cash or residual distribution in the event of the winding up of the Fund.

Based on the Budget 2023 retabled and announced on 24 February 2023, the Government will study the introduction of a Capital Gains Tax for the disposal of unlisted shares by companies beginning 2024 at a lower rate. It is currently unclear whether such Capital Gains Tax, if introduced, will apply to disposal of units in Unit Trust Funds by corporate investors.

Unit Holders electing to receive their income distribution by way of investment in the form of new units will be regarded as having purchased the new units out of their income distribution after tax.

Unit splits issued by the Fund are not taxable in the hands of Unit Holders.

We hereby confirm that the statements made in this report correctly reflect our understanding of the tax position under current Malaysian tax legislation. Our comments above are general in nature and cover taxation in the context of Malaysian tax legislation only and do not cover foreign tax legislation. The comments do not represent specific tax advice to any investors and we recommend that investors obtain independent advice on the tax issues associated with their investments in the Fund.

Yours faithfully,
for and on behalf of
